

# My Covid-19 Time Capsule

By Izzy [REDACTED]

# How I am feeling

I am feeling an arrange of feelings such as: anxious, happy, sad, joyful and many more. I am enjoying spending time with my family and am also enjoying cooking and baking; these are probably my favourite things about this. It is confusing because we still don't know what life will be like when we come out of lockdown. It is weird not being able to see my friends but there are other ways to stay in contact like Zoom, FaceTime and text. I get to see Dad a lot more because he is working from home which is good because when he worked before lockdown, he would be at work in Leeds. It is also quite worrying as you don't know when everything is going to go back to normal.

# Newspaper clippings

**The World Health Organization (WHO) has warned that the coronavirus disease pandemic is "accelerating", with more than 300,000 cases now confirmed.**

It took 67 days from the first reported of Covid-19 to reach 100,000 cases, 11 days for the second 100,000, and just four days for the third 100,000.

But WHO Director General Tedros Adhanom Ghebreyesus said it was still possible to "change the trajectory".

He urged countries to adopt rigorous testing and contact-tracing strategies.

"What matters most is what we do. You can't win a football game by defending. You have to attack as well," he told a joint news conference with Fifa president Gianni Infantino to launch a "kick out coronavirus" campaign featuring footballers.

**The UK can "turn the tide" on the coronavirus crisis within 12 weeks, Prime Minister Boris Johnson has said.**

But pressed on what he meant by the three-month timescale, he said he did not know how long it would go on for.

He said trials on a vaccine were expected to begin within a month and warned he would "enforce" Londoners to be kept apart "if necessary".

Earlier, in a message to the nation, the Queen urged people to come together for the common good.

Speaking in Downing Street, Mr Johnson told reporters: "I believe that a combination of the measures that we're asking the public to take and better testing, scientific progress, will enable us to get on top of it within the next 12 weeks and turn the tide.

"I cannot stand here and tell you that by the end of June that we will be on the

# What I have learnt

- I have learnt to be grateful for what I have, to be determined and stay positive even when things aren't going your way.
- I have also learnt to be tolerant, persevere with my work and help out in the house such as Hoovering, cleaning and tidying up my own mess.
- I have enjoyed doing school work that has been set for me and have particularly enjoyed science as you get to do different experiments and English as I really enjoy the Authorfy challenges.
- As well as many other things, I have learnt to be kind and to give people space when they aren't happy or if they are upset.

# What I am looking forward to doing when all of this is over...

- I am looking forward to going to Harry Potter Studios in London as it has been postponed due to this.
- Going to see family and friends are things I am really, really looking forward to doing as I haven't seen my friends for a long time and I also haven't seen family for a long time.
- As well as many more things, I am looking to doing day to day stuff that we aren't doing anymore such as going to school, seeing my friends, going to clubs after school and many others.

# What we have baked and cooked

- During Lockdown we as a family have baked/cooked many different things including:
- Chocolate Fondants
- Jam
- Gingerbread
- Shortbread
- Cookies
- Cupcakes
- Cakes
- Pizza
- Shoe Buns
- Soup
- Blueberry cake
- Pasta
- Bread
- And many other delicious delights...

# Books I have read...

- |                                  |                            |
